

Use Case

Low-Fidelity

Hand-drawn mobile app interface for a profile page. The status bar at the top shows the time 9:45 and signal/battery icons. The page contains the following elements:

- A profile picture placeholder (circle with a question mark) and a name field containing "Dina".
- An email field containing "dinatyasawaty@gmail.com".
- A "Renew Password" button with an eye icon.
- A location field containing "Medan, Sumatra utara".
- A "Save Change" button.
- A bottom navigation bar with icons for Home, Search, Location, and Profile.

Hand-drawn mobile app interface for a settings page. The status bar at the top shows the time 9:45 and signal/battery icons. The page contains the following elements:

- A back arrow and the title "Settings".
- A "Login with touch ID" toggle switch.
- A "terms of service" link with a chevron icon.
- A "Privacy Policy" link with a chevron icon.
- An "About" link with a chevron icon.
- A "Connect to social Media" toggle switch.
- A "Logout" button.
- A bottom navigation bar with icons for Home, Search, Location, and Profile.

Hand-drawn mobile app interface for a login/sign-up page. The status bar at the top shows the time 9:41 and signal/battery icons. The page is split into two main sections:

- Left Section (Title Screen):**
 - Logo: "Medal pocket" with a medal icon.
 - Buttons: "Sign up" and "Log In".
- Right Section (Form):**
 - A back arrow and the title "Login".
 - Input fields: "Name", "Email", and "Password" (with an eye icon for visibility toggle).
 - A "Sign Up" button.
